WE WELCOME ALL OF YOU TO A RATHER SPECIAL FIXED PRICE LIST! This year of 1977 marks several milestones for Freeman Craig, Junior with regard to his numismatic life. Perhaps foremost is the fact that Freeman has now been involved with collecting and dealing in coins for a full 20 years. For the past fourteen of these years, he has been professionally involved in the purchase and sale of foreign coins. Since 1972, Freeman has been the proprietor of the single most active dealership in Latin American crowns and minor coinage.

For those of you who are curious, we will give a brief "numismatic biography" of Freeman, Junior. In April 1957, while living in Vermont, his father prompted his interest in U.S. coinage by introducing him to coin collecting and presenting him a viable mechanism by which Freeman could earn money to accumulate a coin collection. By 1959, while living in Alaska, both Freeman Senior and Junior had also become quite involved in collecting Canadian coinage.

While living in San Antonio, Texas, in 1961, Freeman, Junior once again followed his father's lead by starting a collection of British Commonwealth and Latin American coinage. Within a month of the opening of Almanzars in early 1964, both Freeman Senior and Junior began a long term association with that well known firm.

Beginning in the summer of 1964, and continuing through his graduation from Princeton University in 1972, Freeman, Junior worked at Almanzars daily every summer and on special research projects throughout the remaining months of every intervening year.

Having devoted more than ten years to accumulating and studying data about Latin American coinage, Freeman was ready to form his own numismatic dealership. Along with another serious and knowledgeable collector, the equal partnership of Cordry & Craig, International was formed. By 1975, both Freeman and Scott Cordry felt that they each possessed the necessary knowledge, capital, confidence and clientele to sustain their own individual company.

Consequently the present firm of Freeman Craig & Co. was established. A new name . . . but an old face to Latin American specialists.

This 20th Anniversary list presents a representative selection of Latin American minor coins augmented by crowns, other world coins and books. The format of this list is substantially different than usual. No photographs are included. All coin descriptions are followed by two prices with the second price being precisely 80% of the first one. The first price, in blue ink, is our usual retail price (as it appears in our regular price list.)

The price in the second column is always in red ink (and is the only price printed in red.) It is our special 20th Anniversary discounted price with the 20% discount already subtracted. These red prices are the actual prices you will pay for any items from this Catalogue No. 38. No further discounts can be given to anybody.

56 CHILE (Cont.) Peso 1834I E96, C86 On our list #32, we discussed this interesting emission at some length. This date has always been a bit confusing since there are two assayers (I and IJ) and the assayer IJ pieces usually (perhaps always) come with a Philippines counterstamp. Since many dealers habitually fail to list the assayer of these coins when they are available, research problems are many. After a lengthy discussion with a collector who is genuinely concerned with this particular date, we have decided that the 1843IJ is probably always encountered with a Philippines counterstamp and the 1834I is never found with the counterstamp. It was also decided that seven pieces of the 1834I have been reported including those known in collections in Chile itself. We have reported this new information with the desire to fully inform any prospective client of the exact rarity of our FINEST KNOWN specimen. Prooflike nearly UNC, Superb . . . 1500.00 1200.00

106 PERU - LIMA Colonial 8 Reales cob (1577-1588) Diego-de-la-Torre issue with * - 8/P - D. Sellschopp 106. Of the fourth (of five) stages of development in the progress of workmanship under the famous silversmith Diego de la Torre and his master engraver, Diego Rodriguez. In commenting on this fourth style of assayer D coinage, Sellschopp states, "We analyze the most perfect coinage produced in any Peruvian mint during the period between 1572 and 1651. . . The delicacy of the style is not restricted to the reverse." We can extend this time period thru the end of cob coinage in Lima. This "most perfect" style coin is an excellent example, being about 50% better than the Sellschopp plate coin. Our piece is at least VF with 22 of the peripherial letters full and clear, and another 11 partially visible and clearly discernible. That leaves only 3 unreadable letters, a smaller quantity than any of the several Sellschopp plate coins of the types. A desirable piece! . 425.00 340.00

107 PERU - COLONIAL Counterstamp over earliest Republic issue. 8 Reales 1824 (indicated by the royal crown with date 1824 below) over a Republic 8 Reales 1822 JP. Elizondo P3, C120. In reality, a colonial Peruvian issue since the counterstamp was applied by loyalists to the King of Spain after Lima was recaptured for the last time 1 1/2 years before their final capitulation on January 22, 1826. The base coin is the popular type with Virtue and Justice at a pillar. As the first crown, indeed the first coin, of independent Peru, it is also historically important. MINOR COINS OF LATIN AMERICA

Collecting the minor coinage of any Latin American country other than Mexico, Venezuela and Panama is still the domain of a relatively small and usually quite sophisticated group of collectors.

Unlike the gold or crown segments of the national coinage, minor coinage is only infrequently sought by investors or cursory coin collectors. It is still a considerable task to determine exactly what small coins were made for many of the countries. Determining the relative rarity within a series is even more difficult.

For these reasons, we do salute those of you who are the "pioneers" in our mutual quest for knowledge about this area.

YOU ARE THE SPECIFIC GROUP OF COLLECTORS TO WHOM WE CATER!
